

## MANAGING SUCCESSFUL PROGRAMMES FOUNDATION

**Duration: 3 days**

This is the entry level qualification for MSP, which covers the full MSP framework in a systematic and stimulating way, supported by real world examples from highly experienced consultants. It is designed to give delegates a sound foundation in the principles of Programme Management and an understanding of the processes, components and techniques of the OGC methodology, Managing Successful Programmes (MSP). On the last day, delegates will undertake the OGC MSP Foundation examination.

### Pre-requisites

Delegates should have a good understanding of project management and a basic awareness of the principles of Programme Management. Delegates receive pre-course reading and preparation and there will be evening work

### Objectives

Attendance on this workshop will enable delegates to:

- Develop a basic understanding of the components, processes, products and techniques of MSP
- Have confidence and competence to help with and support the method in the live environment
- Develop their knowledge of the material and undertake the MSP Foundation Examination.

At the end of the workshop, the delegate will be able to:

- Comprehend the fundamentals of using and tailoring MSP
- Navigate the MSP material to maximise its usage as a working tool in the live environment
- The MSP Foundation Examination is included within the course timetable. This is marked immediately by the Tutor - you will leave the course with your results.

## Format

This is an introductory workshop providing realistic and practical skills consolidation. The format of the event is highly interactive and designed to present the information in memorable, manageable segments. Through the use of exercises which mimic the foundation examination format, delegates will be given full opportunity to test their understanding of MSP. Like the OGC PRINCE2 Project Management standard, MSP is designed to be implemented in a tailored fashion. Any organisation or individual seeing the need for a controlled approach to managing its programmes will benefit from an understanding of the MSP methodology. Delegates will be provided with comprehensive supporting material.

**Pre-course work** All delegates should complete the pre-course questions provided by Logical Training Solutions and have read the MSP Manual. This will involve a minimum of 6 hours pre-course study.

**Content** The MSP course covers the following OGC topics and is accompanied by handouts and comprehensive course notes:

### Transformational Flow

- Identifying a Programme
- Defining a Programme
- Managing the Tranche
- Realising the Benefits
- Delivering Capability
- Closing a Programme

### Governance Themes

- Benefits Management
- Organisation & Governance
- Vision & Blueprint
- Risk & Issue Management
- Planning & Control
- Stakeholder Engagement & Leadership
- Business Case
- Quality Management
